**Arria NLG plc
("Arria" or the "Company")**

Arria to give presentation at SPE Intelligent Energy Conference 2014

Arria NLG plc (AIM: NLG), a leader in the development and deployment of Natural Language Generation ("NLG") technologies, announces that the Company will present at the *Society of Petroleum Engineers ("SPE") 2014 Intelligent Energy Conference* in Utrecht, Netherlands on 3 April 2014.

Arria will present in a session entitled "*Enhancing Value Through Technology*" discussing Big Data innovations to improve risk management and decision support. Arria's Chief Technology Officer, Dr. Robert Dale, and Tom A. Moroney, Deepwater Technology Deployment & Geoscience Expertise Manager for Shell Upstream Americas, will present "The Articulate Machine: Natural Language Generation Decision Support".

The SPE conference, which is sponsored in 2014 by BP, Chevron, ExxonMobil, Shell and Tessella, is one of the industry's most important events bringing together over 2,400 Oil & Gas industry professionals. The conference focuses on cutting edge technologies and developments in the field of intelligent energy with presentations by industry and academic experts.

Stuart Rogers, Chairman and Chief Executive Officer of Arria, commented, "As far as the Company is concerned, no other event attracts such a large and expert audience in the field of intelligent energy.

"We are scheduled to present alongside Shell's Tom Moroney, who co-authored the conference paper with Arria, and we are delighted to have this opportunity to showcase our innovative technology for a group of key industry players and decision makers."
