The conference, which was sponsored by Saudi Aramco, is considered to be one of the industry's most important events bringing together over 2,000 Oil & Gas industry professionals. The event focuses on cutting edge technologies and developments in the field of Intelligent Energy with industry and academic experts being invited to present. The title of Dr Dale's address was "The Articulate Machine" and was focused on the potential applications of NLG technologies in the oil and gas industry.

Stuart Rogers, Chairman and Chief Executive Officer of Arria, commented: "Dr Dale's address was a major showcasing of Arria's technology to an audience consisting of key representatives from the world's leading Oil & Gas companies. The Society of Petroleum Engineers has more than 110,000 members in 141 countries, and Arria is delighted to have presented to this significant network."
