15 Game-Changing Artificial Intelligence Startups—Arria listed #3

You don't have to be a Go champion to have artificial intelligence change your game. Artificial intelligence touches lives every day. Inc. reviewed a few of the many artificial intelligence systems out there. Arria NLG was listed #3. Take a peek at them, because many of them are already looking at you. [READ MORE >](#)

WHY BIG DATA NEEDS NLG ARTIFICIAL INTELLIGENCE

There are enormous and ever-growing data sets about medicine, finance, engineering and many other aspects of modern life. These data sets can be mined for insights that have the potential to radically change and improve the world.

Prof. Ehud Reiter recently spoke at the 15th Annual Conference of the **North American Chapter of the Association for Computational Linguistics Event** on Human Language Technologies and why big data needs NLG. [READ MORE >](#)
